AMENDMENT

In response to the action mailed December 10, 2002 ("Office Action"), please amend the application as follows. Note that the following amendments (i) **raise no new issues that will require further consideration or search** and (ii) **only more clearly demarcate the scope of the claims so as to place them in condition for allowance without touching the merits of the application within the meaning of 37 C.F.R. § 1.116(b).**

In the claims:

Please cancel claim 3 without prejudice.

Please amend claims 1, 4-6, 12, 20 and 21 as follows:

C1
--1. (Amended) A light source for examination of a substance which emits light at a wavelength greater than a wavelength of light emitted from the light source when the substance is excited by the wavelength of light emitted from the light source, the light source comprising:
a housing having a light outlet; and
a low-voltage lamp positioned in the housing and oriented to emit light through the light outlet comprising a light emitting diode,
wherein the low voltage lamp emits light of a wavelength within a predetermined range of less than about 500 nm .--

C2
3--4. (Amended) The light source of claim 1 wherein the light emitting diode is a non-diffused type light emitting diode.--

4. --b. (Amended) The light source of claim 1 wherein the light emitting diode is a diffused type light emitting diode.--
